

STRONGWALL®

PEDESTRIAN BARRIER & FENCING

A robust plastic safety barrier which is used during building work or construction to ensure maximum safety to both members of the public and site workers.

PRODUCT RANGE

STRONGWALL

Usage Benefits

- ▶ Create a highly stable barrier or fenced perimeter to combat high volumes of traffic even in hot weather conditions, with no additional ballast
- ▶ A heavy duty, durable component used for easy and effective installation
- ▶ A compact ballast option that can be easily stored and transported
- ▶ Keep worksites secure with 2m tall anti-climb fencing
- ▶ Be confident that your fence line will stay in tact with connections which are moulded to the barrier
- ▶ Enquire about minimum order quantities for customisations
- ▶ Non-conductive plastic to keep your worksite and the public safe around live sites
- ▶ A closed loop recycling product: made using recycled PVC

COMPLIANCE CODE

Safety at Street Works and Road Works (Red Book), Traffic Signs Manual (Chapter 8), BS 8442:2015, BS EN 13422:2019, BS 7818 1995

STRONGWALL
